

UNIVERSITY OF
GOTHENBURG

Physics under the sun!

Study one or two semesters at the
National University of Mexico in Mexico City or Cuernavaca
supported by the Linnaeus-Palme program

Studies

Studies on master level

Studies will be a combination of courses on advance level and a research project (master project)

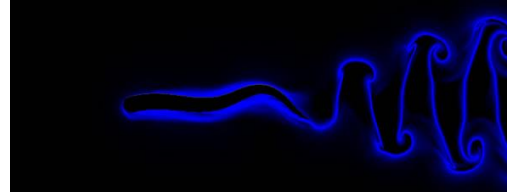

All teaching in English

Studies will be accounted for in a Swedish Master examination

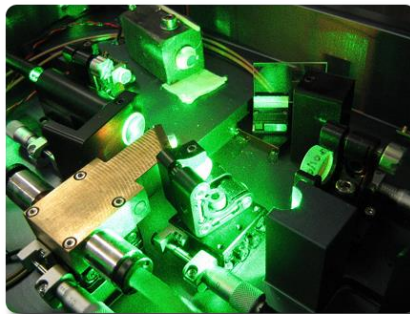

Classes in Spanish available

Example of research projects

Fluid dynamics
for high performance
swimming

Optical Cavity
Biomolecules

Laser plasma
interactions

The Linnaeus-Palme program

The Linnaeus Palme program is aimed to foster a global vision to exchange students, by engaging in research in overseas laboratories, sample a different cultural background and share his/her own experience to international students.

Conditions

Scholarships to cover airfare and extra costs:

SEK 40 000 for one year of studies

SEK 25 000 for one semester of studies

Cost of living app. 50 % lower in Mexico

No tuition fee

Both Chalmers and GU students can apply
